Dr. K.H.V.DURGA RAO, Scientist/Engineer 'SG'
Head, Disaster Management Support Division

Date: Sep 25, 2018

No: 06-FL-2018-OD/09

Dear Sir,

Sub: Cyclone 'Daye'- Odisha-Near Real Time Cyclone Inundation Mapping using satellite data

Please refer to our earlier mail dated 24th Sep 2018 regarding 'Near Real Time Flood Mapping' project using satellite data. So far we have sent 8 flood maps covering floods in part of Odisha State. Heavy rains were reported in Odisha state during fourth week of September, 2018 due to Cyclone 'Daye'. We have analyzed Radarsat-2 SAR data of 25th September 2018 Cyclone inundation map for part of Odisha State. However, rain induced inundation is observed hence, the reported inundation may include wet areas/ rain water accumulation / water in low lying areas. The inundation map along with a brief report is enclosed herewith for your kind information. Since the image was acquired during/immediate to the rainfall event, large extents of wet areas were also observed.

Further, we request you to visit flood page in Bhuvan portal (bhuvan-noeda.nrsc.gov.in/disaster/disaster/disaster.php) NDEM portal for better visualization of inundation extent in Odisha State.

In addition, the inundation layer in GIS ready format and inundation statistics are transmitted to Odisha State Disaster Management Authority (OSDMA) and Flood Management Information System Cell (FMISC), Bhubaneswar, through e-mail for further value addition and dissemination to user departments.

We will continue to keep a watch on the flood situation and update the information as and when required. Your support and active interaction is highly appreciated. Please provide us a feedback on the information being provided.

With kind regards

Yours sincerely,

(K H V Durga Rao)

As per the distribution list enclosed in the report.

Odisha- Cyclone 'Daye'– 2018

1.0 Background

Cyclone storm Daye hit Odisha coast near Gopalpur early on Friday which triggered heavy rains during fourth week of September in low lying areas of five districts of the state, Malkangiri, Ganjam, Khurda, Puri and Nayagarh. Malkangiri district was reported to be worst affected. (Source: News Media)

2.0 Satellite Data

Flood Disaster Team is keeping a constant watch on the flood situation and checked the satellite data coverage over the flood affected areas. Radarsat-2 satellite data of 25th September 2018 was analyzed. (Refer Table-1).

Table-1 Satellite Data acquired over Flood Affected Area

S No	Date	Satellite / Sensor	Status
1	22-07-18 (1800 Hours IST) & 23-07-18 (1800 hours IST)	Sentinel-1 & RADARSAT-2 SAR	Analysed and 1 flood map was sent.
2	25-07-18 (1800 hours IST)	RADARSAT-2 SAR	Analysed and 1 flood map was sent.
3	30-08-18	Sentinel-1A SAR	Analysed and 1 flood map was sent.
4	09-09-18	MODIS TERRA	Analysed and 2 flood maps were sent
5	11-09-18	Sentinel-1A SAR	Analysed and 1 flood map is was sent.
6	23-09-18 (0600 hrs IST)	Sentinel-1A SAR	Analysed and 1 flood map was sent
7	23-09-18 (1800 hrs IST)	RADARSAT-2 SAR	Analysed and 1 flood map was sent
8	23-09-18 (1800 hrs IST)	RADARSAT-2 SAR	Analysed and 1 flood map was sent
9	25-09-18 (0600 hrs IST)	RADARSAT-2 SAR	Analysed and 1 flood map is being sent

3.0 Data Analysis

Satellite data is rectified and inundation layer is extracted. The inundation layer is integrated with district boundary layer, for extracting district-wise inundation statistics which are shown in the Table-2.

4.0 Observations

Based on the analysis of satellite data, the following points were observed.

- Satellite data covers part of Odisha state.

- Major inundation was observed in the districts of Jajpur, Puri and Bhadrak districts.
- The inundation is observed to have receded significantly when compared to inundation as observed on Sep 23,2018 (1800Hrs)

Table-2: District-wise inundated area statistics

SI.NO	District	Flood Inundated Area (ha)
1	JAJAPUR	4297
2	PURI	3657
3	BHADRAK	3572
4	BALESHWAR	3299
5	KENDRAPARHA	2896
	Total	17721

Note:

- Flood inundation may include rain water accumulation / flood water in low lying areas.
- Districts with inundation less than 1000 ha are not included in the statistics.

Distribution List:

1	MHA	<ol style="list-style-type: none"> 1. Joint Secretary, NDM, Ministry of Home Affairs, North Block, New Delhi - 110 001. (Through e-mail). 2. NDM control Room, Ministry of Home Affairs, North Block, New Delhi - 110 001 (Through e-mail).
2	NODAL MINISTRIES	<ol style="list-style-type: none"> 1. Chairman, Central Water Commission, Sewa Bhavan, R K PURAM, New Delhi-110066 2. ADGM (H & A), India Meteorological Department, Mausam Bhavan, New Delhi -110003
3	STATE	<ol style="list-style-type: none"> 1. Additional Chief Secretary and Managing Director, Odisha State Disaster Management Authority (OSDMA), Bhubaneswar 2. Relief Commissioner, Govt. of Odisha, Bhubaneswar. (Through email and hard copy of the map through ORSAC also) 3. Chief Executive, Odisha Remote Sensing Application Centre (ORSAC), Dept Of S&T, Govt. of Odisha, 2nd Floor, Surya kiran building complex, Saheed Nagar, Bhubaneswar – 751 007. (with a request to disseminate the information to the concerned user depts.)
4	ISRO/DOS	<ol style="list-style-type: none"> 1. Director, EDPO, ISRO Head Quarters, Antariksha Bhavan, New BEL Road, Bangalore-560094. (e-mail) 2.
